NEIL WARSHAWSKY, D.D.S., M.S., P.C.

Dr. Warshawsky has over 15 years of experience with cleft palate and craniofacial cases. He lends his support to all of the craniofacial teams in and around the city of Chicago, and in private practice, Dr. Warshawsky sees children of all ages from 2 weeks old and up. Besides the obvious of what an orthodontist would expect to do, Dr. Neil, as he is liked to be called, has a high concentration of adults who aspire to correct their malocclusions, but do not have the desire to have their appliance system show for various reasons. As a result, Dr. Neil has become a high volume user of Invisalign and has achieved Premier practice status, a feat less than 10% OF ALL PRACTICES ACHIEVE WORLD WIDE.

Additionally Dr. Neil was instrumental in helping an alternative clear aligner solution come to market. To satisfy more difficult cases that are looking for comprehensive orthodontic correction Dr. Neil uses Ibraces, a completely customized lingual solution for patients who absolutely want the best looking, most accurate system available for the orthodontic industry bar none.

Dr. Warshawsky is a nationally and internationally recognized speaker on various topics. He has been featured on television interviews on ABC7 as well as Fox 32 in Chicago. He has been in numerous articles ranging from the Chicago Tribune, to the pioneer press discussing orthodontic issues of various nature. He has authored over 13 journal articles in 15 years and recently has assisted a graduate student complete a masters thesis at the University of Illinois. He regularly speaks at the University of Illinois to the graduate students. He is one of 4 individuals that speak on behalf of Ibraces nationwide, and was asked to sit on their Board of Directors. Dr. Neil Warshawsky has dedicated his life to orthodontics and it will be obvious as you tour one of his offices.

EDUCATION

- 1987 University of Illinois at Champaign-Urbana, B.A.

CURRENT CLINICAL RESEARCH

Dr. Warshawsky and his staff work closely with the following companies to help develop new and cutting edge technologies:

- American Orthodontics
- Align Technology
- Allasee Orthodontic Laboratories
- Dentaaurum
- Discuss Dental
- Dolphin Imaging
- G and H Wire Company
- Hu-Friedy Instruments
- Imtec Imaging LLC
- Lingualcare
- Ormco, a Sybron Dental Specialty Company
- Orthopli Corporation
- Raintree Essix
- Super Spring LLC
- Transverse dental correction using osteogenic distraction via maxillary and mandibular dental osteotomies. (University of Illinois Master's Thesis sponsored for this research)
- Predictable outcomes using the Incognito Lingual bracket system.
